

# ORYX — Master Delivery & Handover Plan

Comprehensive Client Deliverables, Deployment Roadmap & Submission Documents

OFFICIAL HANDOVER

## 1 What We Deliver to the Client (Core Deliverables)

### 🌐 Customer Web App

- Mobile-first booking wizard
- Service & product catalog
- w.a.me WhatsApp booking integration w/ Qatar number normalization
- Fast PWA caching & responsive UI

### ⚙️ Admin Back-Office

- Live booking calendar & list
- Inventory & product quantity modals
- Staff profiles & service assignments
- PIN security for sensitive actions
- Bulk delete & customer CRM

### 🔗 Infrastructure & Code

- Production Sanity Headless CMS
- Vercel monorepo deployment
- Custom domain SSL configuration
- Full source code repository access

## 2 Final Documents to Submit to the Client

To make the delivery 100% professional and secure final payment, the following 5 documents must be handed over:

| Document Name                       | Contents & Purpose                                                                                                                        | Format / Recipient                       |
|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------|
| 1. Credentials & Access Sheet       | Admin portal URL, Super-admin login/password, Supervisor Action PIN, Sanity CMS access, and domain DNS access.                            | <b>Encrypted PDF</b> (Business Owner)    |
| 2. Admin Operations Manual          | Step-by-step visual user guide on accepting bookings, updating prices, adding staff, creating coupons, and WhatsApp notifications.        | <b>PDF Guide + Video</b> (Staff & Admin) |
| 3. Project Completion Certificate   | Formal sign-off form acknowledging that all agreed features are delivered, tested, and accepted. <i>(Unlocks final invoice payment)</i> . | <b>Signed Document</b> (Both Parties)    |
| 4. Warranty & Support Terms (SLA)   | Defines the 30-day post-launch free bug-fix warranty, support channels, and terms for the optional Annual Maintenance Contract (AMC).     | <b>Agreement PDF</b> (Both Parties)      |
| 5. IP & Source Code Transfer Letter | Confirms full intellectual property (IP) and software ownership transfer to the client upon final payment settlement.                     | <b>Official Letter</b> (Business Owner)  |

3 Step-by-Step Technical Delivery Roadmap

Step 1: Sanity CMS & Backend Initialization

- ✓ Confirm dataset is set to production on Sanity Manage.
- ✓ Generate Oryx Production Write token with Editor permissions for write operations.
- ✓ Add production domains (e.g. https://oryxbeauty.qa and https://admin.oryxbeauty.qa) to CORS origins.

Step 2: Dual-App Vercel Production Deployment

App 1: Customer Web App (apps/web)

- Set Root: apps/web
- Domain: oryxbeauty.qa
- Env: NEXT\_PUBLIC\_SANITY\_PROJECT\_ID, SANITY\_API\_TOKEN, ADMIN\_WHATSAPP\_FALLBACK

App 2: Admin Portal (apps/admin)

- Set Root: apps/admin
- Domain: admin.oryxbeauty.qa
- Env: ADMIN\_SESSION\_SECRET, SMTP\_USER, SMTP\_PASS, NEXT\_PUBLIC\_ADMIN\_URL

Step 3: Initial Catalog & Company Profile Population

- ✓ Update business metadata under /company (Name, Qatar WhatsApp number, opening hours, currency QAR).
- ✓ Upload initial services, categories, high-resolution hero banners, and active coupons.
- ✓ Create initial staff members and assign their specialty services.

4 End-to-End Quality Assurance (UAT Testing)

| Module Tested        | Test Procedure                                                  | Pass Criteria                                          |
|----------------------|-----------------------------------------------------------------|--------------------------------------------------------|
| Mobile Booking Flow  | Select service, date slot, enter Qatar phone number and submit. | Instant booking record generated in CMS.               |
| WhatsApp Redirection | Click WhatsApp checkout on web portal.                          | Opens wa.me with pre-filled bilingual booking summary. |
| Admin Security PIN   | Attempt product quantity adjustment or coupon deletion.         | Action locked until supervisor PIN is entered.         |
| Bulk Operations      | Select multiple records in admin listing and execute delete.    | Bulk action confirmation modal triggers successfully.  |

5 Sign-Off & Project Acceptance

By signing below, the client confirms that the system has been demonstrated, user training has been provided, credentials delivered, and the project is accepted for production release.
